### Google Analytics

Mennens uses the tool Google Analytics, including Google Tag Manager, to collect information about the use of the website. The purpose is to better understand our users' needs and to create better content for our website visitors. By saving Google Analytics cookies in your browser, we can see, for example, what kind of information you request or what features are important to you.

Google Analytics collects the IP address assigned to you on the date you visit the website. To protect your privacy further, we use so-called IP anonymization for data collection with Google Analytics. This means that the last digits of your IP number are masked, for example 193.188.156.xxx.

Mennens does not combine the information collected through the use of Google Analytics with other PII (personally identifiable information).

Google's possibility to use and share information collected by Google Analytics about your visits to our website is restricted by the Google Analytics Terms of Service, available at:

<http://www.google.com/analytics/terms/us.html>, and the Google Privacy Policy, available at: <http://www.google.com/intl/en/policies/privacy>

You can prevent Google Analytics from recognizing you on return visits to the website by disabling cookies on your browser.

### How to prevent and/or delete cookies

Most internet browsers are initially set to automatically accept cookies. You can change your settings to block cookies or to alert you when cookies are being sent to your device. You can also choose to delete all the cookies stored on your device.

How you delete cookies or modify your browser settings is stated in the instructions to your browser or the help function which most browsers are equipped with. If you use different devices to view and access the website (e.g. your computer, smartphone, tablet etc.) you will need to ensure that each browser on each device is adjusted to suit your cookie preferences.

Note that if you disable the cookies that we use, this may impact your experience while on the website. For example, you may not be able to visit all parts of the website, and some parts of the website may not function correctly. If you do not want us to use any cookies on your device please change the settings for cookies as set out above.
